## STANDING IMF PARTICIPANTS

4Life Center Transfer Factor UA, VSM Ukraine, CHISON MEDICAL TECHNOLOGIES CO., Doktoram, DX-SYSTEMS, Likarni.com (Hospitals), Liqberry, MEDSTAR SOLUTIONS, WHITE STUDIO, ABDOMED, AVIS-MED, Alamed, AFS Medizintechnik, BISHOPHYT Mg ++, BEST DIAGNOSTIC, BETA, Bio Test Med, BMC, BTL-Ukraine, VEGA MEDICA, Vinmedical, VOLES, HELTEK, GNCLS Experimental Plant, Gordienko V.V., Grupotest, DAILY TRADE, DIALABSERVICE, Dialogue Diagnostics, EXDIA PLUS, EXIM, EximCargoTrade, EMPIRICA Medical Company, Erba Diagnostics Ukraine, Euromed, Inmed, IMESK, INTELMEDE, Intermedica, CAPS, CARDIO, Quayser Pharma Ukraine, ZRO QUANT, Kyiv Fungotherapy, Bioregulation & Ayurveda Center, Ksenko, LABVITA, LABIKS, Dr. Roedger Laboratory, LAB-SERVICE, LIFEMEDICA, LEDUM, LORAN, Masazhery Pruzhynny, MEDACADEMY, KVO MEDAPARATURA, Medgarant, Medgrupinvest, Medecal-pro, Mediline, Medin 2011, Medicalaser, MEDICOM-UKRAINE, Medistore, MEDITORG Ukraine, MEDCONSULTING, Medtechsnab, MIDA, International School of Technical Legislation and Quality Management, MK Kvertimed-Ukraine, Modem 1, Representative Office of MUKOS Pharm, NaturVita, Nectar, Nikator, OLIMP, ONIKO, OSD Eastern Europe, Polyx Group Solutions, Polipromsintez, POLTAVA MEDOBLADNANNIA, Profimed-Service, Radmir, Reagent, RENAISSANCE MEDICAL, Rehaflex, SVS-ARTA, System Medicals, SKY MEDICA, Smart Med, SPIKARD, Business Automation Union, Terra Med, TechMedContract, TJ Health, Topline, Ukrainian Medical Certification Center, UKRMEDEXPERT, UKRMEDCERT, UkrMedSpectr, UKRRGSINTEZ, Ultrazine, PHARMLINK, Feminecare, HEALTHY STYLE, CHIMEC, ChistoTil, YURIA-PHARM, UTAS and others.

## NEW IMF PARTICIPANTS

CeGaT GmbH, Civitta, Edan Instructments Inc., KOTRA, Locks, MPE, OrtoStop, Panaceishop.com, Prestige Comfort, SCHILLER UA, Symmetry, Vishpha Pharm Factory, Aqua DBK, Aquadar, Biodent, Biomed Diagnostic, AIS Group, DANA MEDICAL, Danson Pharma, Deca Laser UA, Diamedix Impex, Doctor Filin, DOPOMOGA-I (MEDICARE), Estem, Zhytomyrbioprodukt, Imed, Clinical & Diagnostic Laboratory Medlux, MIRS Corporation, LAPOMED, MEDINOVA, MEDINTEX, Organosin, Pover Pro, Providence Medica, Synthesis, SURSYL-ORTO, TerraLab, Technovagy, Unomed, Pharmaceutical Firm "Darnitsa", Formula of Love, Fortis Medical, Center for Modern Rehabilitation, ShimUkraine and many others.

## NUMBER OF IMF VISITORS IN 2012 – 2019

## OFFICIAL GUESTS OF THE IMF OPENING CEREMONY

**Valentyna G. GINZBURG**, Director of the Health Department at the Executive Body of Kyiv City Council (Kyiv City State Administration)

**Roman M. ISAYENKO**, Head of the State Service of Ukraine for Medicines & Drug Control

**Volodymyr M. KOVALENKO**, Vice President of the National Academy of Medical Sciences of Ukraine, Director of Academician M.D. Strazhesko Institute of Cardiology, Academician

**Yuriy V. VORONENKO**, Rector of P.L. Shupyk National Medical Academy of Postgraduate Education, Academician of the National Academy of Medical Sciences of Ukraine

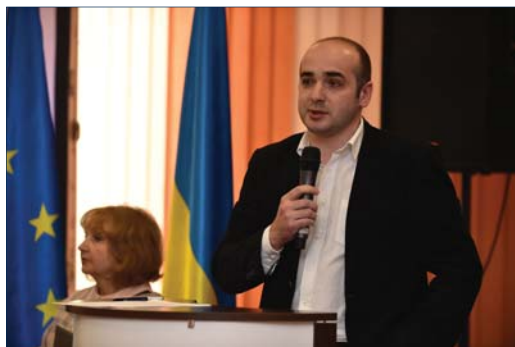

**Igor D. SHKROBANETS**, Head of the Medical & Organizational Department of the National Academy of Medical Sciences of Ukraine

**Vasyl M. KNIAZEYVCH**, Chairman of the Board of the All-Ukrainian Public Organization Ukrainian League for the Promotion of Palliative & Hospice Care, Chairman of the Panteleimon's Order Honorary Council (former Minister of Health of Ukraine)

**Johan Vochtelo**, Senior Manager at Refurbished Equipment Secondlife CANON Medical Systems Europe B.V.

**Natalia O. LISNEVSKA**, President of the Ukrainian Federation of Public Organizations Promoting Healthcare in the Civil Society

**Valentyna D. POLTAVETS**, Executive Director of the Association of United Territorial Communities

## IMF VISITORS INCLUDE

Top management of health departments of Regional and City/Town State Administrations, representatives of united territorial communities, directors of state institutions of the Ministry of Health of Ukraine, National Academy of Medical Sciences of Ukraine and P.L. Shupyk National Medical Academy of Postgraduate Education, presidents of medical associations, rectors of higher medical educational institutions and postgraduate educational institutions, directors of IMF participating companies, best healthcare professionals, and mass media representatives.

## GRUTINGS TO THE PARTISIPANTS AND GUESTS

**PETRO O. POROSHENKO***President of Ukraine*

I am convinced that fruitful discussions on topical health issues will show once again that our doctors and management are ready for changes and consolidate efforts of all stakeholders in strengthening important decisions to promote reforms.

**OLGA V. BOGOMOLETS***People's Deputy of Ukraine, Chairperson of the Healthcare Committee of the Verkhovna Rada of Ukraine*

Each year, IMF serve as a platform for fruitful discussions on the most urgent issues of implementation of the state healthcare policy, better quality and accessibility of medical care for the people, regulation of professional activities, professional self-governance and ongoing professional development.

**IRYNA V. SYSOYENKO***People's Deputy of Ukraine, Deputy Chairperson of the Healthcare Committee of the Verkhovna Rada of Ukraine, Chairperson of the Medical Reform Monitoring Subcommittee at the VR Healthcare Committee*

The topics proposed for discussion at the International Medical Forum are extremely relevant, indicating the need for an open dialogue between representatives of the healthcare sector and government authorities in order to introduce advanced initiatives into practice.

**SERGIY I. BEREZENKO***People's Deputy of Ukraine, Member of Verkhovna Rada Healthcare Committee*

I wish you professional growth and communication that will inspire you to new achievements, and I hope you have a wonderful experience at the International Medical Forum!

**PAVLO KOVTONIUK***Deputy Minister of Health of Ukraine*

New rules for the "game" on the market require a new level of leadership in the industry. Cooperation with the National Health Service requires careful resource management as well as smooth and efficient processes within a healthcare facility. I am glad that there are platforms, such as the International Medical Forum, where specialists representing public and private sectors can share their experience and success stories.

**ROMAN ILYK***Deputy Minister of Health*

For the past 10 years, the International Medical Forum has become a platform for communication and discussion of current industry-specific issues. Join the discussion about transforming the health care system openly and professionally. We have a common goal and a unique chance to create a truly effective healthcare model.

**ROMAN M. ISAYENKO***Head of the State Service of Ukraine for Medicines & Drug Control*

The reforms in the Ukraine's healthcare system have been underway over the recent years. The health reform is supported by efforts taken to improve the quality of medicines. The State Service of Ukraine for Medicines & Drug Control implements the state policy in the field of quality control of medicines and medical products and licensing of economic activities in the pharmaceutical market. So, I am pleased that Organization and Management in Pharmacy with a few events intended for pharmaceutical manufacturers is one of the IMF's feature areas.

**VALENTYNA GINZBURG***Director of Kyiv Health Department, Doctor of Medical Sciences*

Participants of the International Medical Forum "Innovations in Medicine – Health of the Nation" get together this year, for the tenth time so far, in the most beautiful city of the world to unite their creative, scientific, and professional efforts for the development of medicine! I had the honor to participate in the IMF for many times and I am convinced that this is one of the most prestigious sites for specialists who dedicated their life to medical science, practical medicine, and medical education!

**BORYS Y. PATON***President and Academician of the National Academy of Sciences of Ukraine, Academician*

A truly unique event, this Medical Forum helps its participants use fundamental knowledge to solve extremely challenging tasks in medicine from the development of innovative pharmaceuticals and devices to the implementation of "the technology of tomorrow".

## VITALIY V. TSYMBALIUK

*President of the National Academy of Medical Sciences of Ukraine, Academician*

Over the years, the International Medical Forum has become the most powerful platform that provides a good background for the development of a comprehensive approach to address current healthcare issues. Representatives of national government and local authorities and domestic and foreign scientists and doctors will take part in a constructive dialogue at conferences, seminars, round-table discussions, and workshops held as part of this year's Congress. Specialized exhibitions will bring together manufacturers and distributors of medical equipment and pharmaceuticals, and providers of healthcare services.

## YURIY V. VORONENKO

*Rector of P.L. Shupyk National Medical Academy of Postgraduate Education, Doctor of Medical Sciences, Academician of the National Academy of Medical Sciences of Ukraine, Academician*

I would like to announce that innovative developments for prevention, diagnostics, and treatment to be implemented in domestic medical practice in the nearest future will be discussed at the 8th International Medical Congress "Introduction of Modern Achievements of Medical Science into Healthcare Practice in Ukraine" held with the support of P.L. Shupyk National Medical Academy of Postgraduate Education. In particular, we will focus on changes in the system of ongoing medical education.

## GANNA G. LUNIOVA

*President, Association of Clinical Chemistry & Laboratory Medicine of Ukraine, prof.*

I hope that this research forum will serve as a source of professional knowledge for specialists of laboratory medicine, will facilitate the exchange of information and experience and will help the participants to develop a fresh approach to the most urgent issues of laboratory medicine.

## TETIANA I. GAVRYLENKO

*Chief Specialist in Laboratory Diagnostics, National Academy of Medical Sciences, Vice President of the Association of Clinical Chemistry & Laboratory Medicine of Ukraine, Head of NAMS Interinstitutional Laboratory Reference Center, prof.*

Today, the development of a unified approach and the consolidation of efforts aimed at introducing a quality assurance system in laboratories of each region of the country and accreditation of medical laboratories are vital tasks for the laboratory sector. It will be a guarantee of providing affordable and high-quality laboratory services to the people. Presentations of leading speakers will give rise to discussions of urgent issues, while comprehensive solutions for medical and research laboratories will be presented at MEDICAEXPO International Healthcare Exhibition.

## TETIANA A. YALYNSKA

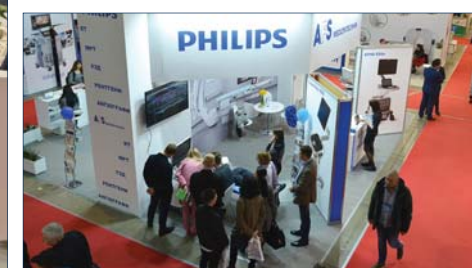

*Head of the Department of Radiation Diagnostics at SE Research & Practical Medical Center for Pediatric Cardiology and Cardiosurgery of the Ministry of Health of Ukraine, Associate Professor at the Radiation Diagnostics Department at P.L. Shupyk National Medical Academy of Postgraduate Education, President of the Association of Radiologists of Ukraine, MoH Experts Team Member (Radiology, Ultrasound Diagnostics, Radiation Therapy, X-Ray, Radionuclide Diagnostics), Doctor of Medical Sciences*

I am absolutely convinced that the work at the IMF will boost the development of radiology, nuclear medicine and radiological oncology in Ukraine and will improve the approaches to diagnosis and treatment.

## OLEG B. DYNNYK

*President, Ukrainian Association of Ultrasound Diagnostics, Chief Physician at the Institute of Elastography, MoH Experts Team Member (Radiology, Ultrasound Diagnostics, Radiation Therapy, X-Ray, Radionuclide Diagnostics), Honored Doctor of Ukraine*

Each of you, who have at least once visited this event, knows that this is an excellent informational platform for all healthcare professionals. Here you can expand your theoretical and practical knowledge, meet like-minded people, dispute, talk with IT developers, learn about recent legislative initiatives in medicine, and test novel ultrasound and functional diagnostic equipment designed for medical institutions operating in various settings.

### CONGRESS FEATURE AREAS

#### RESEARCH AND PRACTICAL PROGRAM OF THE INTERNATIONAL MEDICAL CONGRESS

- Ⓜ Reforming the healthcare sector
- Ⓜ Healthcare organization and management
- Ⓜ Private Medicine Days
- Ⓜ Laboratory Medicine Days
- Ⓜ Medical radiology: ultrasound diagnostics, conventional X-ray diagnostics, radiologic imaging, CT/MRI technologies, radiation therapy, nuclear medicine, radiation safety
- Ⓜ General practice – family medicine
- Ⓜ Therapy, pediatrics, cardiology, neurology, gastroenterology, endocrinology, and nutrition science
- Ⓜ Ophthalmology
- Ⓜ Emergency and disaster medicine
- Ⓜ Military medicine
- Ⓜ Surgery, neurosurgery, endoscopy, and burn injury medicine
- Ⓜ Traumatology and orthopedics
- Ⓜ Physical therapy and medical rehabilitation
- Ⓜ Telemedicine and medical information systems
- Ⓜ Functional diagnostics
- Ⓜ Oncology
- Ⓜ Hematology and transfusion medicine
- Ⓜ Otolaryngology
- Ⓜ Gynecology, reproductive medicine, obstetrics, perinatology, and neonatology
- Ⓜ Dermatology and venerology
- Ⓜ Nursing care
- Ⓜ Pharmacy organization and management
- Ⓜ Satellite events

### PRACTICAL SCHOOLS AND WORKSHOPS

- Ⓜ SCHOOL FOR MANAGERS OF HEALTHCARE INSTITUTIONS
- Ⓜ Ukrainian Laboratory School
- Ⓜ All-Ukrainian School of Ultrasound & Functional Diagnostics
- Ⓜ Ukrainian Academician M.D. Strazhesko School of Cardiology
- Ⓜ Therapy School
- Ⓜ School of Emergency Medical Aid
- Ⓜ Ukrainian Nursing School

## ОСНОВНІ НАУКОВО-ПРАКТИЧНІ ЗАХОДИ КОНГРЕСУ

For **10** years, the Forum has been attended by **100,000+** HCPs and **5,000** reputable speakers and hosted **700+** conferences, symposia, seminars, and workshops.

The research and practical program of the Forum has traditionally been implemented as part of the **VIII INTERNATIONAL MEDICAL CONGRESS "Introduction of Modern Achievements of Medical Science into Healthcare Practice in Ukraine"** as well as the **IV International Healthcare Management Forum** and offered many interesting events. All participants, such as representatives of local authorities, united territorial communities, owners and top managers of private medical clinics, businesses, top management of public health authorities, practitioners, medical and pharmaceutical professionals, heads and representatives of leading scientific, educational and medical institutions, associations, scientists, and nurses, got useful knowledge and skills at the Forum.

**Notably, all the conference rooms were full: there was no free seat so visitors had to stand to hear speakers and many professional discussions continued after the official closing of the events.**

**The Congress was entered to the Register of Congresses, Symposia, and Research & Practical Conferences.**

**AT IMF ONLY!** Top-level lawmakers, doctors, and representatives of the Ministry of Regional Development, Construction, Housing and United Territorial Communities of Ukraine had a dialogue at the **2nd All-Ukrainian Conference "Healthcare Accessibility and Quality in Rural Areas: Present and Future. View of the Regions"** co-organized by the Association of United Territorial Communities and Medical Professional Events. The participants also discussed the progress of the medical reform, results and plans for the future and awarded the best united territorial communities for the progress achieved.

The conferences **"From the Concept of Building to the Concept of Continuous Improvement of the National Healthcare System of Ukraine"** (organized by the Ukrainian Medical Expert Community Public Platform), **"Healthcare Organization and Management 2019"** and **"Modern HR Strategies for the Healthcare Sector"** (organized by NMAPE Healthcare Management Department), and **"Current Issues of School Medicine in the Context of Medical Sector Reform"** (organized by the Institute of Children's and Adolescents' Health, National Academy of Medical Sciences of Ukraine) drew a full house to their reports and presentations.

**A UNIQUE EVENT!** The **SCHOOL FOR MANAGERS OF HEALTHCARE INSTITUTIONS**, which is traditionally organized by the Healthcare Management Department of the Institute of Postgraduate Education of O.O. Bogomolets National Medical University, focused on the issues of reforming the medical sector and healthcare institutions. The report presented by Pavlo Kovtoniuk, Deputy Minister of Health of Ukraine, on how the secondary level of medical care will operate in the future was extremely interesting for visitors. Computer science and telemedicine technologies were also in the focus of discussions.

**NEW!** A practical session for HCPs – **MEDICAL LAW SCHOOL** – focused on legal cases and dealt with legal safety of HCPs in today's socio-economic conditions.

Participants discussed cases when patients are dissatisfied with medical services and analyzed how money can be saved, how to respond to unusual patient behavior and new challenges in HCP's practice, and what are the legal background for operation in the primary care setting during the transitional process of the medical reform (powers, responsibilities, liability and their balance), legal regulations and how HCPs operating in the primary care setting should cooperate with medical specialists. **Radmila Grevtsova** and **Natalia Lisnevskaya** were headlines of the event.

**FOR THE FIRST TIME!** The Medical Law School took courage and refused the traditional communication formats leaving reports behind the door of its conference room and giving preference to live communication and face-to-face discussions of urgent issues. And it was the right thing to do. Indeed, the audience was very exciting – three hours of communication just flew by and transformed into networking and informal talks over coffee.

The extended Consulting Seminar **"Compliance with Licensing Conditions for Medical Practice"** organized by the Legal Department of Medconsulting Company gave floor to leading medical lawyers who gave detailed answers to the compliance questions in medical practice.

**TRADITIONALLY!** Similar to the IMF, the practical conference **"Private Medicine: Realities of Practice"** organized by **Medical Professional Events** was also held for the tenth time.

Inspections of private medical business, HR for the market of private medicine, basic internal documentation, quality assurance of healthcare services by developing internal standards of a healthcare institution, securing agreements with a partner, special considerations of the implementation of JCI standards, optimization of tools and budgets for attracting patients to a clinic, a systematic approach to the management of a medical institution, the future of web-marketing in medicine and how to make a client to be your patient – all these issues gave rise to very active discussions.

**AT IMF ONLY!** The two-day **Research & Practical Conference with International Participation "New Clinical Diagnostic Solutions and Advanced Analytical Technologies"**, co-organized by NMAPE and All-Ukrainian Association of Clinical Chemistry and Laboratory Medicine (in partnership with Diamedikh Impex Ltd.) was very interesting for top managers of clinical diagnostic laboratories and specialists in laboratory medicine.

Virologists, immunologists, and specialists in infectious diseases attended the **Research & Practical Conference "Main Issues of Modern Infectology: Epidemiology, Etiology, Clinical Pattern, Treatment, Diagnostics, and Prevention"** organized by L.V. Gromashevsky Institute of Epidemiology and Infectious Diseases of the National Academy of Science of Ukraine.

Innovative developments, fundamental research studies, modern aspects of therapeutic efficiency control and other related topics were the focus of the **Research & Practical Conference "Scientific Developments and Their Use in Laboratory Diagnostics and Clinical Practice"** (organized by NAMSU and NAMSU institutions – Laboratory and Metrology Service, Interinstitutional Reference Laboratory Center, and the National Research Center Acad. M.D. Strazhesko Institute of Cardiology).

**TRADITIONALLY!** At the **UKRAINIAN LABORATORY SCHOOL**, specialists checked practical skills and theoretical knowledge, got acquainted with new high-precision equipment, and reviewed typical errors and precision testing systems.

**Seven various workshops** were held by business companies: OPTEK Ltd., ZEISS Group, LLC "LABIKS", LABIX LLC, UKR DIAGNOSTICS, BioTestMed, Terra-Med, and INTELMEDELLC.

**FOR THE FIRST TIME!** Lots of questions, active discussions, interesting reports, and modern treatments were discussed at the **Research & Practical Conference "Birth Defects in Adults: Diagnostics and Treatment"** (organized by Research & Practical Medical Center for Pediatric Cardiology and Cardiac Surgery of the Ministry of Health of Ukraine and the Department of Pediatric Cardiology and Cardiac Surgery at P.L. Shupyk National Medical Academy of Postgraduate Education) and the **Research & Practical Conference "Modern Strategy of Radiation Diagnostics and Evaluation of the Therapeutic Efficacy in Patients with Small Pelvic Tumors"** organized by the Research Department of Radiation Diagnostics at the National Cancer Institute.

Specialists in ultrasound diagnostics, radiologists, X-ray specialists, and oncologists attended another event – the **Research & Practical Conference "Radiation Diagnostics. A Look into the Future"** organized by the Institute of Nuclear Medicine and Radiation Diagnostics of the National Academy of Medical Sciences of Ukraine.

The seminar **"Brachytherapy: Modern State and Problems"** held by S.P. Grygoriev Institute of Medical Radiology of the National Academy of Medical Sciences of Ukraine was also a very interesting event for the specialists.

**AT IMF ONLY!** **ALL-UKRAINIAN SCHOOL OF ULTRASONIC AND FUNCTIONAL DIAGNOSTICS: It's better to see once than to hear a hundred times.**

Participants in the two-day School learned about the new functionality of modern ultrasound systems in multiparameter ultrasonic research, got acquainted with the peculiarities of ultrasound diagnostics of diverticular disease, received information on transient wave elastography of spleen and its importance in portal hypertension, learned about the technique of transient wave skin elastography, and reviewed the FATE protocol in emergency cardiology. Participants saw the state-of-the-art equipment presented by manufacturers.

The School was organized by the Association of Radiologists of Ukraine, the Ukrainian Association of Specialists in Ultrasound Diagnostics, NMAPE Department of Radiation Diagnostics, and LMT Company.

Also, there were interesting reports from representatives of participating companies focused on modern Doppler sonography, ultrasound navigation at blockages at the neck level, duplex scanning of vessels of the neck, brain, and lower extremities, diagnostic station DS 20, and somnological aspects in functional diagnostics, detection of microcirculation disorders in clinical rheumatology and endocrinology, telemetric ECG diagnostics, and telemedicine diagnostics in the primary care setting.

The current state of family medicine in Ukraine was the key focus at the **Research & Practical Conference "Current Issues of Family Medicine in Ukraine"** (organized by the NMAPE Institute of Family Medicine and Health of Society International Association, NGO).

**TRADITIONALLY!** The main focus of the **UKRAINIAN ACAD. M.D. STRAZHESKO SCHOOL OF CARDIOLOGY** was the specialized and high-tech treatment of cardiovascular diseases and ongoing monitoring of patients. The Conference was organized by the National Academy of Medical Sciences of Ukraine, Association of Cardiologists of Ukraine, National Research Center Acad. M.D. Strazhesko Institute of Cardiology, NAMSU.

Modern approaches to the diagnostics, treatment and prevention of diseases of the internal organs were discussed at the **5th Anniversary THERAPY SCHOOL** held by the NMAPE Department of Therapy.

Problems of diagnostics and treatment of GI diseases were studied at the symposium held by the Institute of Gastroenterology of the National Academy of Medical Sciences of Ukraine.

The NMAPE Department of Neurology No. 2 held an interesting event for neurologists and family doctors – **Research & Practical Conference "Modern Approaches to Diagnostics and Treatment of Neurological Pathology"**, while L.T. Mala Institute of Therapy of the National Academy of Medical Sciences of Ukraine organized the **Research & Practical Conference "New Trends and Unresolved Issues in Prevention of Non-infectious Diseases"**.

The **Research & Practical Conference for Young Scientists "Prospects for the Development of Preventive and Clinical Medicine"**, devoted to the 10th anniversary of the state research institution Research & Practical Center of Preventive and Clinical Medicine of the Administration of State Affairs, drew a full house to its presentations and reports.

**A UNIQUE EVENT!** There were two events for ophthalmologists: **Research & Practical Conference "Non-steroidal Anti-inflammatory Drugs in Ophthalmology: Trends of the Decade"** (organized by the NMAPE Department of Ophthalmology) and **Research & Practical Conference "Modern Issues of Ophthalmology"** (organized by V.P. Filatov Institute of Eye Diseases and Tissue Therapy, NAMSU and Association of Ophthalmologists of Ukraine, SCO).

The **Symposium "Emergency Aid to Adults and Children in Medical Emergencies"** organized by Special Training Center LLC brought together specialists in emergency medicine, first aid teams and staff of hospital admission units.

The reform of emergency medical aid in Ukraine, the integration of the system of emergency medical aid of Ukraine into the European Union, the basic principles of emergency medical aid, unresolved issues of psychological rehabilitation of veterans of the Antiterrorist Operation and the United Forces' Operation and many other issues were discussed at the **Symposium "Urgent Issues of Emergency Medicine and Disaster Medicine"**.

**AT IMF ONLY!** Several workshops were held as part of the **SCHOOL OF EMERGENCY MEDICAL AID** to present and demonstrate the best practice in cardiopulmonary resuscitation, airway patency in the field conditions, modern methods of stopping external bleeding, transcutaneous tracheostomy, basic and extended life support techniques if blood circulation and respiration stopped, and telemetric ECG diagnostics in ER team's practice. This school was held by P.L. Shupyk National Medical Academy of Postgraduate Education (Department of Emergency Medicine, Department of Disaster Medicine and Military Training); Kyiv Emergency Medical Aid and Disaster Medicine Center; Kharkiv Medical Academy of Postgraduate Education (Department of Emergency Medicine and Disaster Medicine); Zaporizhia Medical Academy of Postgraduate Education (Department of Emergency Medicine and Disaster Medicine); NGO All-Ukrainian Association of Emergency, First Aid, and Disaster Medicine Professionals, and Kyiv City First Aid Clinical Hospital.

**TRADITIONALLY!** For the fifth year so far, the National Academy of Medical Sciences of Ukraine has held the **Research & Practical Conference "Modern Methods of Medical Aid in Combat injuries and Medical & Social Rehabilitation of ATO Participants"** for representatives of the relevant government authorities, top management of NAMS state institutions, military doctors, and rehabilitation specialists, while the Institute of Neurology, Psychiatry and Narcology of the National Academy of Medical Sciences of Ukraine has given a platform to discuss the related mental disorders at its seminar **"Post-stress Psychiatric Disorders of Combatants and Civilians Surviving Combat Operations: Diagnostics, Treatment, and Rehabilitation"**.

A series of active conferences were focused on **SURGERY, NEUROSURGERY, ENDOSCOPY, AND BURN INJURY MEDICINE** to cover issues of endovascular neuroradiological surgery, surgical treatment of patients with pancreatic tumors, burn injury medicine, and reconstructive/restorative surgery. These conferences were organized by Research & Practical Center of Endovascular Neuroradiological Surgery of the National Academy of Medical Sciences of Ukraine, Acad. A.P. Romodanov Institute of Neurosurgery and O.O. Shalimov National Institute of Surgery and Transplantology, and the NMAPE Chair of Burn Injury Medicine and Plastic Surgery.

**FOR THE FIRST TIME!** The Basic Surgical Skills Workshop "Live Surgery" trained basic surgical skills, skills of microsurgery, vascular and laparoscopic surgery.

Modern approaches to the diagnostics and treatment of injuries and diseases of large joints and the achievements of the Sytenko professional school in the treatment of patients with spinal pathology were discussed at the conferences organized by the NAMSU institutions – the Institute of Traumatology and Orthopedics and Prof. M.I. Sytenko Institute of Spine and Joint Pathology.

The **Research & Practical Conference "Neurorehabilitation and Neuroplasticity"** gave platform to representatives of the Ukrainian Research & Practical Medical Center for Neurology and Rehabilitation of the Ministry of Health of Ukraine and the All-Ukrainian Association of Physiotherapists and Resort Specialists who shared their knowledge with visitors.

**A UNIQUE EVENT!** A very important topic was discussed by the experts of the National Cancer Institute at the **Research & Practical Conference "Modern Trends in Diagnostics and Treatment of Malignancies"**.

**TRADITIONALLY!** The attention of obstetricians and gynecologists was drawn by **Research & Practical Conference "Current Issues of High-risk Pregnancy"** (organized by the Acad. O.M. Lukianova Institute of Pediatrics, Obstetrics and Gynecology), **Research & Practical Conference "High-risk Pregnancy and Childbirth"** (organized by the Department of Obstetrics and Gynecology No. 2 of O.O. Bogomolets National Medical University), and a roundtable discussion **"Simultaneous Interventions in Operative Gynecology"** (organized by the Acad. O.M. Lukianova Institute of Pediatrics, Obstetrics and Gynecology).

**A UNIQUE EVENT!** Transfusion specialists and hematologists took part in the active discussion initiated by the speakers of the NAMSU Institute of Hematology and Transfusion Medicine, NMAPE Departments of Hematology and Transfusion Medicine, and the NAMSU Institute of Blood Pathology and Transfusion Medicine as part of **Research & Practical Conference with International Participation "Infusion/Transfusion Therapy in Hematology: Infectious Safety and Ways of Development of the Blood Service in Ukraine"**. Also, the educational-practical seminar with international participation **"Creation of the National Blood System in Ukraine: Key Issues of Reform, Sustainable Development and Exchange of Experience"** discussed key issues of the reform of the National Blood System in Ukraine.

Current problems of dermatovenereology were discussed at the **Research & Practical Conference "Clinical and Epidemiological Peculiarities of Dermatoses and Sexually Transmitted Infections in the Modern Period. Innovative Methods of Diagnostics and Therapy in Dermatovenereology"** organized by the NAMSU Institute of Dermatology and Venereology.

**AT IMF ONLY!** The **UKRAINIAN NURSING SCHOOL: professionally, usefully, and "on one breath!"** This event was sponsored by Becton Dickinson and Yuria-PHARM Corporation.

What a nurse should know, the legal boundaries of communication with patients and their relatives, first-aid methods in case of anaphylactic shock and nurse's competences, urgent states, cardiopulmonary resuscitation, the risk of infection from a puncture with infected needle, safety rules for nurses during injection and infusion therapy, measles vaccination, structured approach to evaluation and critical illness stabilization (PALS) according to the recommendations of the American Heart Association – all these issues and many others were discussed at the School.

A number of interesting events were held for **managers of pharmacies, pharmacy assistants, and senior pharmacists** to discuss the current state, development prospects, regulatory requirements and many other important industry-specific issues. These events were organized by the Ukrainian Pharmaceutical Quality Institute, Ukrainian Research Institute of Certification, UKRMEDCERT LLC, and NAMSU Institute of Pharmacology and Toxicology.

**A UNIQUE EVENT!** This year, the business sector joined the development of the research and practical program for the Congress – **Vector-Best-Ukraine LLC, Lab-Service LLC, Educational-Methodological Center International School of Technical Legislation and Quality Management LLC, Medgarant LLC**. Their conferences, seminars, and workshops were full of specialists.

The **INTERNATIONAL MEDICAL FORUM "Innovations in Medicine – Health of the Nation"** (IMF) has become a traditional spring event for our company, Canon Medical Systems, and a great opportunity to meet partners and friends and demonstrate the latest innovations and functionality of our equipment.

The IMF is an efficient communication platform for all professionals of the medical sector, such as HCPs, manufacturers of equipment, instruments, pharmaceuticals and other medical products. This is a very good opportunity for professional networking where we can discuss urgent issues, share our experience, and see the latest developments in the medical market.

This year's IMF surprised us by the new venue and the number of visitors. We met our regular partners and new interesting contacts during all three days of the exhibition.

At our stand, leading experts demonstrated how the latest innovative ultrasound systems work and what functionality they offer to professionals. We presented our flagship line Aplio i-series, the innovative line Aplio a-series, the modern range Xario g-series and our favorite – Aplio Platinum Series and handheld systems – the Viamo series.

Everybody could scan models and get firsthand advice from leading ultrasound specialists who worked at the stand. In our opinion, such approach gave us a good opportunity to demonstrate all the advantages of our systems and to hold a series of successful negotiations resulting in signing cooperation agreements.

We would like to say a big thank-you to the IMF organizers and are looking forward to participating in IMF 2020!

**IGOR I. KATAYEV, Commercial Director, INMED UKRAINE LLC**

We would like to say thank-you to **the IMF organizing committee for the perfect organization of the 10th Anniversary International Medical Forum!**

I liked the great variety of conferences, seminars, and schools.

A clear timetable and maps helped participants and guests to navigate through numerous IMF events and locations.

Participant check-in/checkout processes, stand cleaning, and staff work – all run smoothly. No problem at all!

But my special thanks must be reserved for those who organized the buffet! It was a great time spent with colleagues enjoying wine, delicious snacks, fruits, and the cake!

**OLENA KONDRATYIEVA, Product Manager, SCHILLER UA**

I'd like to say a few words about **the 10th ANNIVERSARY INTERNATIONAL MEDICAL FORUM**: this year's venue is definitely much better than the last year's one, and there were more visitors. We could network with target audience very productively.

Thank you for the great organization of the event!

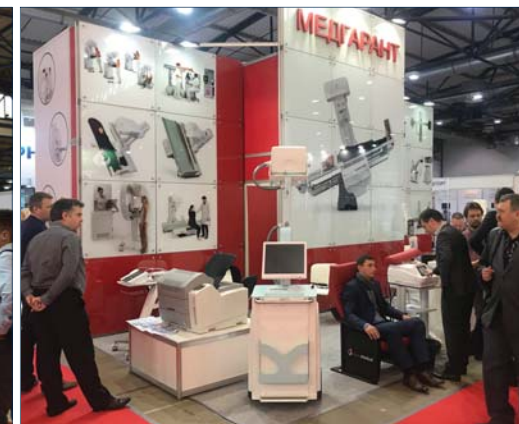

**INNA BUSHOVSKA, KHIMLABORREKTIV LLC**

We would like to say thank-you to **LMT Company**, the organizer of **the 10th International Medical Forum "Innovations in Medicine – Health of the Nation"**, for creating a professional atmosphere at the Forum and conferences mostly held by Expo organizers.

The target audience that visited our conference included HCPs and medical specialists interested in innovative methods in the treatment and prevention of small pelvic diseases.

Next year, we will definitely join the Forum as participants and would like to hold a conference at the Forum.

**ANDRIY LAKHNOVSKY, Anti-corruption Officer, MEDGARANT LLC**

I would like to say thank-you to the organizers of the International Medical Forum for the opportunity to communicate with like-minded people, to get acquainted with the latest researches in medicine, and to discuss interesting scientific achievements. I have no doubt that the information received at the Forum has enriched everyone with new ideas, new impressions, and new experiences.

**O.T. SHTOGRYN, Head Physician, Shostka Central Regional Hospital, a communal non-for-profit enterprise**

Hello! I am very satisfied with the MedForum. I listened to Pavlo Kovtoniuk's presentation – he talked about where the industry is moving (the firsthand information) and talked to colleagues. I liked the Poltava's report and experience. I saw the medical companies where we can buy equipment for our Primary Medical Aid Center (I saw how it worked at the exhibition). I heard interesting things about building telemedicine space and ongoing professional development for doctors. I accompanied doctors who attended Cardiology and Family Medicine sections – we got certificates of attendance and were not left hungry. Everything is thought out and organized at a very high level!

**S. LOBODA, Trostianets Primary Medical Aid Center, a communal non-for-profit enterprise**

I was very pleased to see a wide range of representatives / manufacturers of medical products at the Forum. This allowed you to hold meetings with many representatives and in the shortest possible time, to discuss the issues of interest, and to get acquainted with what they offer with your own eyes. Seminars and conferences were also very useful as they dealt with regulatory environment and the ways of resolving some challenging issues in declaring product compliance with technical regulations.

I wish the organizers success, prosperity, and stable development.

**ARTUR G. ANDRYUSHCHENKO, Head of Quality Management, JV Optima-Pharm LTD**

Visiting such events makes you closer to modern medicine. Many thanks to the organizers, partners, sponsors, and participants! I wish everyone happy longevity!!!

**VIKTOR KAMINSKY, Head of Korosten Blood Department, Blood Center, Zhytomyr**

On behalf of Sumy Regional Laboratory Service, I would like to say THANK-YOU for holding the MedForum! The information was interesting and useful for our Service. I wish you success and inspiration in our common cause.

**SVITLANA GERASHCHENKO, Head of KDL KS SOR Regional Narcological Dispensary**

Thank you for the useful and interesting information we received when visiting the forum! We are waiting for new meetings.

**OLGA GALBAY, Head of the KDL Center "Solaris", Mariupol**

Dear colleagues, it was a well-organized event. I attended two venues – a conference on dermatology and venerology and a seminar on transfusion medicine. These events were very useful for me and encouraged me to pursue some further steps in my professional development.

At the Forum, I acquainted with urgent problems of some medical sectors and challenges of the medical reform. I would like to say thank-you for the interesting scientific information and wish you success in organizing future conferences.

**NADIA M. KOGUT, Head of Organization and Methodology at the Health Center**

It's like a breath of fresh air for doctors who are immersed in their daily routine. We do need the new information to keep up the pace of time and continue our ongoing professional development.

I attended two healthcare organization and management sessions. I really liked the School for Managers of Healthcare Institutions led by Valentin D. Pariy.

Moreover, I was impressed by the selection of top-level speakers and the relevance of the information provided. I am grateful to the organizers – well done!

**RUSLAN J. LUGOLOOBI, Top Category Therapist, Head of Medical Care Quality and Expert Review of Temporary Disability Cases, Kyiv City Clinical Hospital No. 1**

The event was very interesting and informative. I discovered a lot of interesting things for myself and I'm already trying to introduce something new to my work. Thank you very much and I hope that such events will be held more often!

**NATALIA RESHTAKOVA, Deputy Chief Physician, Regional Clinical Psychiatric Hospital**

We would like to say thank-you to the organizers for the opportunity to visit an event of such high level. The agenda of the Chief Nurse's School was relevant and interesting. Especially we liked the lecture on psychology, the relationship with patients, and the ways of solving and preventing conflicts.

**Nursing staff at Volnovakha Central District Hospital**

I have been visited the Forum for the first time and I have only the best impressions: the venue is very nice and everything is comfortable, the atmosphere is amazing. The interesting presentations gave me new knowledge in the field of my professional interests and I received a lot of new information. The exhibition of medical equipment was a must-visit for me.

I want to say thank-you to the organizers for holding the Forum. I wish success in further development and I am going to attend this event in the future as it was very useful to me.

**ILONA PARKHOMCHUK, Biologist at KP PMTSPMSD**

I was very pleased to attend the 10th Anniversary International Medical Forum!!! Well done! Speakers and presentations were right to the point and interesting! Thank you very much! Can't wait for the next Forum next year!

**Dr. KATERYNA MOROZOVA, Obstetrician and Gynecologist at Maternity Hospital No. 1 / Women's Clinic No. 4**

**The Organizing Committee of the IMF, Congress and Exhibitions  
would like to say thank-you to Partners, Participants, Co-organizers and Visitors  
for their contribution and assistance in holding events**

**AND WOULD LIKE TO INVITE YOU TO TAKE PART AND ATTEND**
