X INTERNATIONAL MEDICAL CONGRESS*

TRADITIONALLY SUCCESSFULLY PASSED THE CHIEF PHYSICIAN SCHOOL, organized by the Department of public health service management of the Bogomolets National Medical University, led by Paryi Valentin. The Medical Directors and their Deputies reviewed the management of the health enterprise, ensuring the safety of hospitals in emergency situations, improving staff evaluation in the context of the restructuring of the health system, the special features of the DGD coding system for multi-hospital treatment and many other issues.

RELEVANT During the conference **“COVID-19 is a global challenge to medicine and society. Lessons. Conclusions. Opportunities for the national health care system”**, organized by the National Medical Council of Ukraine and Ukrainian Medical Expert Community, a dialogue took place between medical directors, their deputies and heads of structural units of medical institutions of various medical profiles.

WITH SUCCESS Scientific-practical conference **“Scientific and practical issues of radiology in Ukraine”**, organized by the Department of Radiology of the Shupyk National Healthcare University of Ukraine, was held, which brought together a full hall of listeners. In addition, the conference was broadcast on-line, which allowed specialists to join the dialogue and listen to interesting reports.

AT IMF ONLY ALL-UKRAINIAN SCHOOL OF ULTRASOUND AND FUNCTIONAL DIAGNOSTICS: it is better to see once than hear a hundred times. Under the leadership of Dynnik Oleg, school participants learned about new approaches to ultrasound elastography and liver stoichiometry, a protocol for lung ultrasound in the diagnosis of COVID-19, skin ultrasound in aesthetic medicine. Business companies demonstrated their modern equipment in action, innovative developments and novelties to the students of the school. The organizers of the school were: Ukrainian Association of Ultrasound Diagnostics Specialists, LMT Group of Companies, market companies.

TRADITIONALLY Specialists of the emergency medical service, medical workers of ambulance and emergency medical teams, admissions departments of hospitals have gathered Symposium **“Current issues of emergency medicine and disaster medicine”**, which this year took place online and offline format. The organizers of the event were: Shupyk National Healthcare University of Ukraine (Department of Emergency Medical Conditions, Department of Emergency Medicine and Military Medical Training); Center of Emergency Medical Help and Disaster Medicine of Kyiv city; Kharkiv Medical Academy of Postgraduate Education (Department of Emergency Medicine and Disaster Medicine); Zaporizhzhya Medical Academy of Postgraduate Education (Department of Emergency Medicine and Civil Protection); All Ukrainian Association of ambulance workers, medicine of emergency and disaster medicine, APO; Kyiv City Clinical Hospital of First Aid.

**All events of the Congress in the official post-release on the website*

II INTERNATIONAL CONGRESS ON LABORATORY MEDICINE*

TRADITIONALLY The heads of the CDL, laboratory medicine specialists, the board and members of the ACCLMU, the chairmen of the regional cells of the ACCLMU were gathered by a two-day scientific-practical conference **“State and prospects for the development of laboratory medicine in Ukraine”**, organized by the Department of Clinical Laboratory Diagnostics of the Shupyk National Healthcare University of Ukraine; NGO “Association of Clinical Chemistry and Laboratory Medicine of Ukraine”. The conference addressed topical issues of training laboratory medicine specialists, modern challenges in the context of combating the COVID-19 pandemic, urgent problems of modern laboratory diagnostics, modern technologies in laboratory medicine and many others. The event was sponsored by STARLAB.

AT ICLM ONLY On the second day of the congress, there was an authoritative practical event – **UKRAINIAN LABORATORY SCHOOL**, led by Gavrilenko Tetyana, where masters classes were held on the operating equipment with the possibility of testing, advice and practical nuances of use, and qualified advice from industry experts. 12 masterclasses were held in various.

WITH SUCCESS Specialists of the national blood system, laboratory doctors, doctors of all specialties who are involved in the organization of a transfusion service in health care institutions and the provision of services for the transfusion of blood components were gathered by the Professional school with international participation **“Applied issues of the activities of subjects of the blood system and the provision of transfusion care”**, organized by the Kyiv City Blood Center, CNE, of the executive body of the Kyiv City Council (Kyiv City State Administration); Department of Hematology and Transfusiology of the Shupyk National Healthcare University of Ukraine; SI “Ukrainian Center for Transplant Coordination of the Ministry of Health of Ukraine”; Association of Blood Service of Ukraine, Ukrainian Public Organization; Institute of Hematology and Transfusiology of the Academy of Medical Sciences of Ukraine, SI. The conference addressed the issues of standardization and quality of procurement, processing, testing and storage of donor blood and blood components, transfusion care in a healthcare institution and applied issues of related areas.

UNIQUE Successfully held a round table **“Point of sampling of medical laboratory in the management system in accordance with the requirements of DSTU EN ISO 15189: 2015”**, organized by the Educational-Methodical Center “International School of Technical Legislation and Quality Management (ISTL)”, LLC. In the first part, the participants discussed the topic “Preanalytical processes of a medical laboratory in accordance with the requirements of DSTU ENISO15189: 2015. Requirements for the sampling point of a medical laboratory”, and in the second part of the round table work in groups on the topic “Internal factors affecting the quality of the work of a medical laboratory, in particular a sampling point of a medical laboratory” took place. All participants of the round table received an ISTL CERTIFICATE with the qualification “Quality manager of a medical laboratory in accordance with the requirements of DSTU EN ISO 15189: 2015”.
